THE TURKISH CRISIS.

REDUCED PRICE.

THROUGH ASIATIC TURKEY.

NARRATIVE OF A JOURNEY
BY
GRATTAN GEARY.
With a Map and Illustrations.
IN TWO VOLUMES.

A few Copies left to be disposed of at reduced price. Rs. 6-8; Postage, Annas 8.

(*From the Russian "Golos."*)

The Author keeps strictly within the domain of fact; and, with great fairness, tells all he saw during his long journey over Asiatic Turkey. He does not exaggerate that which reflects discredit upon the Turks, nor does he withhold anything testifying in their favour.

* * * * *

Mr. Geary directs the attention of his readers to the fact that Russia, having possessed herself of Kars, now actually occupies in Asiatic Turkey the strongest strategic position. At any time she chooses she can annihilate Turkish power in Mesopotamia and Syria.

* * * * *

Mr. Geary states that the tribes inhabiting those parts feel extremely dissatisfied with the Turkish rule.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, AUGUST 26.

An advance of ¼ in Consols and ½ in Rentes is reported by Reuter in yesterday's telegrams. In Indian Government Securities Fours were ¼ lower, but Fours-and-a-half were unchanged at 87¼.

The rates of discount remain as last quoted. In the London General Produce markets there are no changes of any importance. At the Periodical Sale Sales, Sheep sold at 1d. decline. Metals are as last quoted at £73 for Australian Copper, £70 for Braziers, £13½ per ton for Hard Spelter, and 6d. per lb. for Yellow Metal Braziers.

The Manchester market yesterday was quiet, but Cotton in Liverpool again closed firm; the day's sales, however, were only 8,000 bales, of which 700 bales were Surats; spot prices were unchanged, but L. M. Uplands for August delivery were again quoted at 1-32d. per lb. higher, the price now being 7 5-32d. per lb; for Sept.-Oct. delivery the quotation is 6 11-16d. per lb. shows 1-32d. per lb. decline. The New York telegrams still quote ready Mid. Uplands at 11 15-16 cents per lb. Futures for Nov. delivery are ·03 lower, being quoted at 10·64 cents per lb. The Receipts at the U. S. ports now compare with those of the past two seasons as follows, viz:—

	1880	1879	1878
Wednesday's Receipts	3000	700	2500
Five days' "	10000	3200	7600
Total Since 1 Sept.	4906600	4442500	4244100

At the usual weekly biddings for Council drafts in London yesterday Rs. 28,50,000 were allotted to Calcutta at an average rate of 1s. 8-14d., and Rs. 1,50,000 to Bombay at 1s. 8-16d. per Rupee. Tenders at 1s. 8½d. received 5 per cent. The amount to be allotted next week will again be £300,000.

Bar Silver closed firm at 52½d. per oz.

STERLING EXCHANGE opened here this morning steady at a partial advance of 1-32d. on yesterday's closing rates, as the sale of Council Bills was quite as high as was generally looked for. Towards the close, however, there was a weaker feeling for ready Bills, and rates close as follows:—

Bank Bills, on demand	1s. 8 5-32d.	per Rs.	
" Telegraphic	1s. 8¾d.	"	
" 3 months' sight	1s. 8¼d.	"	
Credits 3	"	1s. 8¼d.	"
Documents 3		1s. 8 13-32d.	"
Francs 3		2·15½	"

GOVERNMENT PAPER.—The market has been fairly steady to-day and business has been reported at our quotations—viz., Four per cent. Rs. 96½, Four-and-a-half per cent. Rs. 104 5-16, Port Trust Bonds Rs. 94½. Municipal 5 per cent. Loan Rs. 103½.

SHARES are weak, and where any changes have taken place they have been generally in favour of buyers. Among Banks, Bombays have given way Rs. 2½ and Nationals Rs. 1 per share. Mills, Anglo Indians are Rs. 3 per share lower, Alliance Rs. 25, Empress Rs. 5, and Mazagons Rs. 5, but Dhurumsys have recovered to Rs. 395, and Jewraz Baiboo to Rs. 960 per share. In Press Companies Motusis have declined to Rs. 260 per share.

COTTON.—The accounts arriving from the Berars are again very unfavourable, and rain is badly wanted both for the Cotton and Grain Crops. Prices here are in consequence about Re. 1 per candy dearer all round, but buyers-to-day have shown little inclination to operate in either Old or New descriptions. We quote:—

Good Oomras	Rs. 214	per candy.
F. G. F.	" 207	"
" Dholleras	" 205	"
G. F.	" 200	"
" Compta	" 195	"
New Akote (March delv.)	" 223	"
" M. G. Broach	" 235	"

LINSEED is quiet but steady at Rs. 6-14 per cwt.

RAPESEED continues very dull at Rs. 6 per cwt.

WHEAT is in moderate demand at Rs. 32 per candy. The news from New York in Reuter's telegrams that shipments are diminishing is very vague, and until confirmed is scarcely likely to have any effect on the market.

FREIGHTS remain as dull as ever at 15s. to 20s. per ton for Liverpool, and 25s. to 30s. per ton (paid here at par) for the Mediterranean and Adriatic ports.

PIECE GOODS.—Until Crop prospects improve there is no chance of any improvement in this market, which is very dull notwithstanding the firmness in the Home markets.

The Bombay Gazette

FRIDAY, AUGUST 27, 1880.

THERE were persistent rumours in Bombay yesterday with regard to some new misfortune at Kandahar. We set the telegraph at work with a view to verify them, but failed to learn anything confirmatory either at Simla or Poona. We believe there is some ground for supposing that the garrison may be hard pressed, but there is nothing to justify alarm for its safety. The rapid approach of General Roberts' relieving force must now be well known to Ayub, who will have to make up his mind either to fall back to the Helmund, or, if he elects to fight, to take up a good position at some distance from the city, so that the garrison may not be able to sally out and take part in the action. In either case it is probable that he will abandon the siege even before the 30th, when General Roberts' veterans will arrive, according to present calculations, under the walls of Kandahar.

THE Liberal Ministry appears to be strangely perplexed by the state of Ireland, and if Mr. Forster continues to give forth daily highly contradictory assurances and forebodings, he will succeed in rendering the general public as perplexed as himself and his colleagues in regard to the "Sister Island." That troops are not being sent to the country; that they are being sent; that exceptional legislation will not be required, that it will be required; that the action of the House of Lords does not require the Government to take any particular steps this year; that the action of the House of Lords was a calamity, and that the Government, if it be forced to take any special coercive measures, will take care that the said measures shall not benefit unjust landlords—for whose behoof the House of Lords acted so calamitously—all these and some more oracular utterances have be-

wildered the public during the last week or two. Giving the Government full credit for good intentions, we cannot help feeling that the course it is now taking can have none but mischievous results. If the action of the Peers in throwing out the Compensation Bill was a calamity, the Government should have taken prompt measures to alleviate that calamity and bring the Peers to a more sober state of mind. But the Ministry accepted the defeat and announced its determination not to bring in any other measure of relief during the present Session. Seeing that the Compensation Bill was merely a temporary measure, justified solely by the exceptional circumstances of the present time, this resolution of the Government was of course equivalent to its formal abandonment for good and all. The land agitation, as might have been expected, immediately broke out again with fresh virulence; rifles were purchased in large quantities, and Fenian emissaries became active throughout the country. Matters assumed so alarming an appearance that the Ministers, who at first declared that the common law would be sufficient to preserve order, had to declare a few days later that it might be necessary to call Parliament together in the autumn to pass coercive measures. And to day we have a telegram showing that this latter declaration has been supplemented by a direct slap in the face for the Lords, who are informed that their action was a calamity, and that whatever coercive measure may be necessary, it will not be one that will help unjust landlords. All this is calculated to bring the whole machinery of Government into contempt. If the Compensation Bill was really a measure of relief so vitally necessary to the well-being of the country that its rejection by an almost unanimous vote of the Lords was a national calamity, the Cabinet should either have resigned, or found means to pass the Bill in some other form in spite of the "obstruction" of the landlords who constitute the bulk of the Upper Chamber. But the Ministry did nothing of the kind. The Cabinet tamely acquiesced in the ignominious rejection of the measure by the Lords—a rejection which was foreseen from the first—and it is only when the country has been actually brought, to use Mr. Gladstone's words, "within a measurable distance of civil war," that the Irish Secretary gives the Peers a bit of his mind and tells them that the cause of the unjust, shall not reap any advantage from their selfishness. Clearly the Government has allowed its hand to be forced by the extreme men who will now fancy that everything is to be gained by setting the authorities and the law at defiance. The Government should never have allowed the duty of protecting the Irish "ryots" from their zemindars to fall into the hands of others, and this is by their own showing the very thing they have done. If the Compensation Bill was worth anything, and had any *raison d'être* at all it was absurd to make a tremendous fight to pass it through the House of Commons when it was well known that the Bill would be rejected by the House of Lords, if that rejection was to be deliberately accepted as final. The real truth seems to be that the Cabinet does not know its own mind on this Irish land question. The curse of divided counsels doubtless paralyses its intelligence and its action, and it is content to wait upon events. With an almost unanimous House of Lords on one side and Mr. Parnell and his followers in the enjoyment of an admitted grievance, at the head of an almost insurgent population on the other, a divided Cabinet may be very naturally perplexed; and the perplexity is manifest enough alike in its acts and in its utterances.

ONE controversy respecting the steps to be taken upon the outbreak of famine was conclusively decided by the experience obtained during the late famine in Bombay and Madras—that of the wisdom of prohibiting exports, or of otherwise interfering with the free movements of commerce. The Report of the Famine Commission, to which we have already referred, is especially strong and decided upon the question of food supply. The reasons advanced by Lord Northbrook for refusing to stop the export of grain are held to be unanswerable, and the activity of private trade is relied upon as sufficient to supply the food required in a distressed province. But there are certain exceptions to the rule of non-interference, which are clearly noticed, when the Government would be bound to interfere. As, for instance, when the local market is altogether insufficient for the supply of large masses of people collected on relief works, or in

LATEST INTELLIGENCE

FURTHER DETAILS OF THE SORTIE FROM KANDAHAR.

(FROM THE PRESS COMMISSIONER.)

SIMLA, AUG. 26.

A letter received at Killa Abdulla, from General Primrose, says that on the 16th we attacked the village Deh Khwaja and got through it, but finding it strongly occupied and reinforced by contingents from other villages, had to retire to the fortress.

Our losses were—General Brooke, who commanded in the assault; Captain Cruickshank, R.E.; Lieuts. French and Stay ner, 19th N. I.; Lieuts Wood and Marsh, of the 7th Fusiliers; Major Newport, 28th N. I.; and Rev. Mr. Gordon, killed. Major Vandeleur and Capt. Conolly, 7th Foot; Lieut. Wood, Transport; Col. Nimmo, 28th Regt.; Col. Shewell, Commissariat; Col. Malcolmson, 3rd Sind Horse, wounded. All the latter are doing well.

THE ENEMY'S LOSSES.

The enemy's loss was heavy; our Cavalry made two charges and cut up a good many.

AYUB KHAN'S POSITION.

Ayub Khan's main position faces the east and is between high hills on the west and Argandab, covered by the canals in front. Some regular infantry are in the villages east and south of the city, supported by a large contingent of Ghazi. The Durani cavalry picquet is in the Mundi, Hissar and Khushab roads. It is reported from another source that General Brooke was killed while trying to carry off Capt. Cruickshank when wounded.

AYUB KHAN'S LOSSES IN THE SORTIE.

(FROM OUR OWN CORRESPONDENT.)

ALLAHABAD, AUG. 26.

In consequence of the losses sustained by Ayub Khan's forces during the late sortie a force despatched by him against Chaman, with four guns, is said to have been recalled.

SUPPLIES AT KANDAHAR.

In Kandahar city, meat and firewood are reported scarce; other things are abundant. The health of the troops is said to be good, and the weather cooler.

A report that the Herat regiments have deserted Ayub Khan is utterly unfounded. He has with him eleven regiments of regular infantry, thirty-two guns, and numerous cavalry, besides Ghazis.

STEAMER REPORT.

GALLE, AUG. 26, 6-30 A.M.

Mail Steamer Hydaspes, from Australia arrived.

THERE was a rumour in Bombay yesterday that H.M. ship Eurydice was lost on the African coast. The enquiries made go to show that the rumour is quite unfounded. Nothing has been heard of such an occurrence by those who in the ordinary course would have been informed of such an event had it really taken place.

A PUBLIC meeting in support of the Bombay Military Relief Fund is to be held at the Council Hall, Poona, on Monday next, at which His Excellency the Governor will preside.

THE Bombay season reports for the week ending the 18th inst. show that the *kharif* crops in Sind required water, and rain was greatly wanted in the Deccan districts. The crops in Guzerat were doing well.

SURGEON LITTLE, officiating Sanitary Commissioner in the Berars, has been appointed Sanitary Commissioner, substantive *pro tem*, until further orders.

WE publish to-day the Annual Relief of British and Native troops, extracted from the *Pioneer*, who had the list telegraphed from Simla.

THE Deputy Accountant General at Bolarum announces the cash balances in the treasuries of the Hyderabad Administration to be as follows:—On 30th June, 1878, Rs. 52,91,123; on the same date 1879, Rs. 59,47,471; and in 1880, Rs. 65,59,819.

OUR correspondent at Aurangabad, under date 25th instant, writes:—"The 4th Cavalry H. C. (wing) did not leave Aurangabad on the 18th. The order for them to move was cancelled the following day by telegram. Another telegram was received on the 23rd, ordering a squadron of the 4th Cavalry H. C., under command of Colonel Hill, to proceed immediately to Mominabad to relieve the 3rd Cavalry H. C. proceeding to Afghanistan. The squadron left Aurangabad this morning, and by forced marches, they hope to reach their destination on the 30th. The distance is about 120 miles. Colonel Hill made over the command of the station to Lieutenant-Colonel Justice, the next senior field officer. Colonel Dun proceeds on leave, as his health is much impaired. Great fears are entertained of a drought; no rain falls, and the crops are being destroyed."

IN the correspondence and despatches just published in the *Bombay Government Gazette*, and which we republish to-day, relating to the withdrawal of the several military posts at Abdul Rahman, Mel Karez, Dubrai, and Guttai and their concentration at Chaman, which was effected by Major W. Jacob, 19th N. I., under orders from General Primrose, immediately after receipt of news of General Burrows' defeat at Khushki-Nakhud, General Phayre expresses his "full appreciation of the soldier-like manner in which Major Jacob executed the difficult duty entrusted to him, when surrounded by some hundreds of hostile Afghan villagers for a distance of about 53 miles." The Commander-in-Chief also considers that "Major Jacob executed the very difficult duty devolving upon him with judg-ment and success."

THE native population of Belgaum, a correspondent informs us, has been greatly agitated by an occurrence which took place there a few days ago. It appears that a young Mussulman and a Hindoo were playing at a sort of singlestick bout with *lattees*, and one of them lost temper and struck the other so violently over the head as to cause his death shortly afterwards. Our informant is rather vague on some points. For instance, our informant writes:—"The police are informed, and it is said that already our active and intelligent Cantonment Magistrate has a clue; but it is out of my province to say more than necessary."

THE annual October vacation of the Bombay High Court, Appellate Side, will commence on Monday, the 11th October, and end on Saturday, the 13th November, both days inclusive. Applications in criminal cases and applications of an urgent character in civil cases will be received during the vacation, and the Court will sit for the disposal of ordinary criminal business on Thursday, the 28th October. The Registrar's office will be open daily from 11 a.m. till 4 p.m. during the vacation, except on Saturdays and close holidays.

A RATHER intricate point of law came on for decision before Mr. Justice Kemball and Mr. Justice F. D. Melvill at the High Court a few days ago. The prisoner in the case, Bapujee Hari, a Brahmin pensioner, said to be a respectable man, was charged before Mr. W. Wedderburn, Sessions Judge of Ahmednagar, with forgery with using a forged document, and with fabricating false evidence. In making an endorsement of a payment of Rs. 50 on a bond executed by him as surety for Rs. 399, the prisoner also endorsed a payment of Rs. 360 said to have been made two years previously; and the charges were laid in reference to the latter endorsement. Prisoner admitted it, saying that the omission to enter the payment at the time was accidental; and that he had made the endorsement at the request of the complainant. For the prosecution it was denied that the Rs. 300 were ever paid, or that prisoner was requested to write the endorsement. The assessors, who sat at the trial with the Sessions Judge, were of opinion that the payment of Rs. 300 was proved; and Mr. Wedderburn, giving the prisoner the benefit of a doubt, acquitted him of the first charge. He was also acquitted of the second charge; but differing from the assessors, the Sessions Judge found the prisoner guilty of the third charge, fabricating false evidence, and sentenced him to rigorous imprisonment for two years. As it had been found that the prisoner had paid the Rs. 300, it appeared to the Sessions Judge that the alteration, however irregular, was not dishonest or fraudulent. But it was the intention of the complainant to sue prisoner on the bond which at that time showed a payment of Rs. 100 only; and that the bond remained as it was, the judge at the trial would have decided whether the oral evidence regarding the payment of Rs. 300 was sufficient or not. In Mr. Wedderburn's opinion, the endorsement was made in order to corroborate the oral evidence and to deceive the judge into thinking erroneously that it was written at the date it purported to be, and with the consent of the holder of the bond. Taking this view of the case it appeared to the Sessions Judge that this act of the prisoner was not a fraud upon the complainant so much as an offence against public justice. In the opinion of their Lordships, the entry was just as open to the interpretation that the money was paid on that particular date as that the endorsement was then made; and the case turned very much on the weight to be attached to the evidence of the witnesses for the prosecution, the statements of many of whom were irreconcileable; and their Lordships inclined to the view taken by the assessors, thinking it very improbable that the prisoner would have attempted a fraud which must have been detected almost as soon as it was committed, and which obviously could have been of very little avail to him. The conviction and sentence were reversed and the prisoner was ordered to be discharged.

THE trial of the soldier Davey, of the 33rd Regiment, for the murder of a native woman at Naini Tal, is fixed for the 1st September, before Mr. Justice Straight, of the N. W. Provinces Bench. The trial will take place at Naini Tal, the Assembly Rooms being utilised as a Court House for the occasion.

HIS EXCELLENCY the Governor-General in Council has been pleased to sanction the grant of a medal for the best shot amongst the Volunteers of each Presidency, the competition being conducted strictly under rules laid down by the Assistant Adjutant-General for Musketry. The grant of the medal, and the conditions governing it, will be hereafter notified.

THE retirement from the service of Lieut. Colonel A. C. Lilly, M.S.C., Commandant 1st Infantry Hyderabad Contingent, leaves vacant a permanent commandantship. The next for command are Lieutenant-Colonels Justice and Way, (2nd in Command), of the 6th and 4th Infantry H.C. respectively. It will be in the recollection of our readers that the above two officers were superseded about three years ago when a vacancy occurred in the 2nd Infantry H. C. We hear the command of the 6th Infantry H. C. will shortly become vacant.

THE secretaries of the principal cricket clubs throughout India have received copies of a letter asking for information as to the possibility of inducing an English eleven of professionals to visit the country. Teams of twenty-two could be got together in the different parts of India—as Bombay, Calcutta, Madras, Allahabad, Lahore—superior to the majority of American or Canadian teams which these wandering elevens are in the habit of meeting; but whether the secretaries of the various clubs will feel themselves justified in recommending the tour on pecuniary grounds is very doubtful. As a contemporary points out, professional eleven can hardly be expected to start on so costly an expedition without reasonable assurance that their expenses will be covered.

LIEUTENANT GENERAL RICHARD STRACHEY, C.S.I., Royal (Bengal) Engineers, a Madras contemporary points out, has cause for surprise at seeing himself habitually alluded to in the newspapers as Sir Richard Strachey. This title is given to him no less than four times in *The Times* of the 29th ultimo. If he has recently been promoted to the Knight Commandership of the Star of India, the fact has not been made public, so far as we are aware.

"RORY O'MORE" writes to the Singapore paper to point out that the local volunteers have no right to their regimental motto, "Primus in India." The first corps started in India was the "1st Punjab Volunteer Rifle Corps," which was organized in 1842 during the 1st Kabul Expedition. This corps is still in existence, and musters over eight hundred strong, with also two hundred Mounted Rifles.

THERE seems to be some uncertainty, a contemporary says, with regard to the probable movements of the junior officers of the Judge Advocate-General's department. Colonel Young, the Judge Advocate-General, has resigned, or is just going to resign the service, and Colonel Horne will succeed him; Colonel Nedham moving up to Army Head-Quarters. Captain Tytler will soon be back from the front, and before very long Major Clementi will probably return from furlough. The only two available circles are the Presidency and the Allahabad ones. It is presumed that Major Clementi, being the senior, will have his choice of the two.

ON the present state of Kashmir, a correspondent writes from Srinuggur to a contemporary:—The famine is over, but has left its marks everywhere. You see this in the tenantless houses by the wayside, in the closing of the silk manufactories, and in various other ways too palpable to be misunderstood. Many an industry has been ruined, many a trade gone, many a family been impoverished. The loss of property to individuals and the misery the famine has inflicted on the inhabitants are incalculable. During its prevalence, thousands were compelled by starvation to emigrate to the plains, and fortunate were those who reached them alive, for many perished on the road. The artisan, the weaver, the carpenter, the goldsmith fled from the country to seek relief elsewhere. The zemindar, who had held his lands for years, abandoned them in despair, for there were neither cultivators, nor cattle, nor grain; nor means of raising his crops. Before the famine there were about 10,000 shawl weavers in Srinuggur alone. I doubt whether 4,000 can be found at the present moment. The silk trade, under the superintendence of Babu Nemlumbur, was in a flourishing condition, and large quantities of it were annually exported to Europe. Now it has almost ceased to exist, and it will take a long time before it can be resuscitated. But Kashmir is beginning to recover from the effects of the calamity. Where there were neglected fields are now smiling crops; where villages and hamlets were almost deserted is now to be heard the busy hum of human voices collecting and threshing the harvest. This year has been an auspicious season. The fall of snow in the winter has been unprecedented. The rains have been abundant and timely, and the *rubbee* crops are generally fair. The rice plants just sprouting out, have been benefited by the rainfall and promise to yield a good harvest. Still destitution is great, and the Maharaja keeps a poor-house open, where about five or six hundred paupers are clothed and fed. At Sheik Baugh, on every Saturday, large number of paupers assemble to receive alms and clothes from the Rev. Mr. Wade, who has been a resident of Kashmir for years. I was present on one occasion, when there were more than two thousand seated on the ground in double files.

THE *Sydney Morning Herald* has published a skit, after the manner of "The Battle of Dorking" which created such a sensation at home shortly after the Franco-German War, entitled "The Battle of Botany Bay." It purports to describe the sudden arrival off Sydney Heads of a Russian invading expedition from Vladivostock, escorted by iron-clads; the destruction of the one or two weak English men-of-war on the station; the forcing of the entrance to Sydney harbour, despite torpedoes and Volunteer batteries; the defeat of the Volunteer Force, and the capture of Sydney city. It is a fiction, says the *Herald*, but it is a fiction founded upon the appreciation of existing possibilities, against which it would seem the duty of far-seeing statesmen to take precautions such as have not been taken yet.

THE East African expedition—which, since the lamented death of its leader, Mr. Keith Johnson, has been under the command of Mr. J. Thomson—arrived safely at Zanzibar from the interior on the 17th of last month, so by this time no doubt Mr. Johnson is in England. He has done a great deal for his patrons, the Royal Geographical Society, especially in the hitherto unexplored country between Lakes Nyassa and Tanganakya.

AMUSEMENTS AT AHMEDABAD.

(FROM OUR OWN CORRESPONDENT.)

AHMEDABAD, AUG. 23.

THINGS are beginning to look up with us in Ahmedabad. Within the last three weeks we have had four *tamashas* in camp—the artillery and the State Railway sports and two amateur entertainments. The artillery sports led the way, and were in every respect most successful. The manner in which the men took their horses over the hurdles was particularly good—so good, indeed, that one felt sorry that all the competitors could not be drawers of prizes. A few evenings later they gave us an amateur entertainment, which was well-attended by the Europeans of both camp and city. The performance consisted of vocal and instrumental music, a selection from Pickwick, and Christy minstrels; it wound up with a screaming farce. Of course, the piece chosen from Pickwick was the "Immortal Trial," the reader being our District and Session Judge, who (after a protracted and well-sustained struggle with a refractory candlestick, which *would not* keep the perpendicular) showed, by the manner in which he entered into the spirit of the selection, that he could appreciate the gay as well as the grave. He was greeted by rounds of applause, and received a hearty encore. But the piece of the evening was played on the violin to a plain accompaniment, and when the performer, in response to an enthusiastic encore, struck up the Jingo song, he simply brought the house down, the artillerymen singing the chorus with the greatest gusto. The vocal music was also very good—*place aux Dames*. The efforts of the lady who took a leading part in it were duly appreciated by the audience, who were certainly under an obligation to her for the good-natured way in which she contributed towards their amusement. Our *padre* sang "Love's Request" in good honest English style, and nothing short of a repetition would satisfy his audience. The "Scout" was particularly well sung, and without wishing to be hypercritical, one may suggest that it suited the singer's voice better than the song to which it was an encore. The Christy Minstrel performance was al-o good, and reflected much credit on those who took a part in it. The miraculous manner in which "Bones" wound his long limbs about, as if they worked on swivels elicited rounds of applause. The screaming farce was like all farces, utterly ridiculous, but at the same time very amusing.

The State Railway sports came off last Thursday, and I think I may fairly say they were among the best of their kind. In the afternoon a number of Europeans and a very large concourse of natives gathered to look on. The leaping was the best I have seen in India, one of the railway employés taking the hurdles like a greyhound. The Drunkard's Race was very amusing, the lightest heads of course went to the wall, and only one or two out of the competitors who ran in each race managing to reach the goal. The whole thing was a great success, and reflected much credit on Mr. Conder and his co-adjutors, to whose exertions we are indebted for a pleasant afternoon.

The second amateur entertainment took place last Friday evening, and was also a success. It consisted in the greater part of a Christy Minstrel performance. The get up of the whole company was extremely good, and showed a decided talent for masquerading. "Bones" and the "Tambour," as usual, doing great execution. The delight of the audience came to a culminating point when "Bones," in a paroxysm of merriment, lost his wig, and the supernatural gravity with which he picked it up and resumed, it was something beautiful to behold. The "Stump Oration" was telling, and convinced us all of the delights of teetotalism, under *favourable* circumstances of course. The solo on the banjo was very good, and warmly encored. Altogether we are under a great obligation to the amateur performers of Ahmedabad, and hope that they will give us many more opportunities of spending a pleasant evening in their company. This letter should have been written sooner, but time and tide will wait for no man, and the *sirkar mabap* is a hard task-master.

THE METEOROLOGICAL DEPARTMENT IN WESTERN INDIA.

WE have received the report on the administration of the meteorological department in Western India for the year 1879-80, Mr. F. Chambers, Meteorological Reporter for Western India, in the course of his report, states that numerous small meteorological observatories have been established; all have been provided with good verified instruments; observers have been trained, and a system of periodical inspection has been instituted. The registers are collected in the Central Office in Bombay, where they are carefully examined, corrected and reduced, and so prepared for incorporation in the general annual reports of the Indian Meteorological Department. The work has been undertaken under the conviction that much light would thus be thrown upon the causes of the droughts and famines to which India is unfortunately subject, and in the hope that a knowledge of their causes would afford the means of forecasting them; so that preparations might be made to meet them. Unfortunately, at this stage of the enquiry, viz., that at which the raw material may be said to have been collected and at which discussion and original investigation should begin, the work of the Bombay Office is abruptly brought almost to a close, for financial pressure has hitherto been so great that Government have been unable to provide the necessary assistance for its further effectual prosecution. Nevertheless, working without this assistance, Mr. Chambers has deduced a very important relation, between the amount of the rainfall of the whole Presidency and the abnormal variations of the barometric pressure, and has also traced out an intimate connection between the general state of atmospheric pressure in India and the Indian Ocean and the average area of the spots on the sun's surface. These relations afford every valuable suggestions for the direction of further enquiry, and hold out some definite prospect of our being able eventually to predict the variations of the rainfall. Mr. Chambers says:—It has been found that when the barometer stands at a lower elevation than is usual for the season of the year, the rainfall is generally greater than the average; for instance, when at Bombay during the rainy season, the barometer falls only as much as a tenth of an inch below the average height for the season, the rainfall becomes more than half an inch per day heavier than usual; and throughout the Presidency generally the experience of the past few years has shown that when the atmospheric pressure is low than usual, the rainfall is greater than the average, an abnormal fall of pressure of but a tenth of an inch, being accompanied by a general increase of rainfall amounting to *one hundred per cent.* of the average fall. Similarly, when the barometer stands *above* the average height for the season, the rainfall is proportionately less than usual. The observation recorded at the observatories in Western and Southern India are now only available for the development of the climatology of the country, and Mr. Chambers says that if they were telegraphed daily to Bombay they would also become available for the prognostication of storms. A storm warning system on a small scale has, however, received the sanction of Government.

THE ANNUAL RELIEF, 1880-81.

WITH the sanction of the Government of India, the following movements in relief of British and native troops for 1880-81 are directed to take place as herein ordered.

Holloway's Pills.—Indigestion, Stomach, and Liver Complaints.—Persons suffering from any derangements of the liver, stomach, or the organs of digestion should have recourse to Holloway's Pills, as there is no medicine known that acts on these particular complaints with such certain success. It peculiar properties strengthen the stomach, increase the appetite, and rouse the sluggish liver. For bowel complaints it is invaluable, as it removes every primary derangement thereby restoring the patient to the s ndest health and strength. These preparations may be used at all times and in all climates by persons affected by biliousness, nausea, or disordered liver; for flatulency and heartburn they are specifics. Indeed, no ailment of the digestive organs can long exist their purifying and corrective powers.

QUESTIONS FOR THE POST MASTER GENERAL.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—We have stamped envelopes. Now if, while indorsing one, we through mistake write different from what we intend, or, in short, the envelope is rendered useless somehow or other; can the stamp be cut out from the envelope, and affixed on another one, and brought into use, or is the stamp quite useless?

Again, with post cards, if similar things happen, can we stick a blank paper on the card, either on the stamped side—leaving out the stamp—or on the reverse side, and bring the card into use?

TULSI LAKE.—The total fall of rain at Tulsi up to 6 a.m. of Sunday, the 22nd instant, was 59 inches and 90 cents. The height of water in the lake was 39·46 feet.

THE telegraph office at Songad, on the Kattiawar State Railways, has been opened for the receipt and transmission of paid messages from the 16th inst.

THE BROACH MUNICIPAL COMMISSION.—Mr. H. D. Cartwright, Agent of the Bank of Bombay at Broach, has been appointed a member of the local municipal commission.

RAILWAY ECONOMY.—A correspondent writes:—"There was no light in the Manmad waiting room on the night of the 14th instant," and wants to know if oil is scarce.

HIGHER PERSIAN EXAMINATION.—Lieut M. J. Meade, Assistant General Superintendent Thuggee and Dacoity Hyderabad (son of Sir Richard Meade), has passed the higher proficiency test in the Persian language.

BIRTHS AND DEATHS IN BERAR.—There were 3,422 deaths in Berar during the month of May last, out of which 2,073, or nearly two-thirds, were from fever. The number of births in May last were 5,434 (2,830 males and 2,604 females).

STATEMENT OF SILVER BALANCE IN THE MINT.—The value of silver in the Mint on the morning of the 16th inst. was Rs. 58,04,283; add silver received during the week Rs. 6,85,270. The sum of Rs. 10,00,000 in new coin was paid during the week; the balance left was Rs. 54,89,553. There is in addition silver bullion valued at Rs. 15,84,718 belonging to private individuals deposited in the Mint vaults and awaiting assay.

MORTUARY RETURNS.—The total number of deaths registered during the week ending Tuesday, 24th inst., was 400, being 42 more than in the previous week, 72 less than the total of the week ending 26th August, 1879, and 95 less than the mean of the corresponding period in the preceding five years. During the week 336 births were reported in the different districts of the city. The rate of mortality per 1,000 of the population per annum was 29·77. There were 105 deaths from remittent fever, being 12 less than in the previous week, and 56 less than in the same period last year. There was no death from cholera during the last three weeks. The deaths from diseases to the respiratory system, diarrhœa and dysentery were last week 24, 25, and 21 respectively as compared with 22, 23, and 26 last year. The following remark is appended by the Health Officer to his return:—"As there is no allowance made for the increase of population, natural and extraordinary, during recent years, the percentages of mortality are unreliable."

PRINCE'S DOCK.—The s. s. Cutch Pelhwan entered and the s. s. Arrow left the dock yesterday.

THEFT.—Succaram Govind was yesterday convicted by Mr. Dosabhoy Framjee of stealing a gold neck ornament, valued at Rs. 8, the property of Gopal Babajee. Prisoner being an old offender was sentenced to six months' rigorous imprisonment.

A BREACH OF THE ABKARI ACT.—Dajee Mulloojee was yesterday fined Rs. 5 by Mr. Dosabhoy Framjee for conveying from the Dadur distillery a quantity of country liquor without a permit from the Collector of Bombay.

FATAL ACCIDENT.—A Coroner's inquest was held yesterday at the J. J. Hospital on view of the body of Dhakoo Bagoo, a labourer belonging to a spinning and weaving mill, who died from tetanus following a wound to the fingers of his left hand which was accidentally caught in some machinery. A verdict to that effect was recorded.

A SUSPICIOUS CHARACTER.—Juggeenath Moteeram was yesterday sentenced to three months' rigorous imprisonment by Mr. Dosabhoy Framjee for having in his possession sundry ornaments, brass rings, pieces of silver, and Rs. 98-10-6 in cash, reasonably

camped from Belgaum; and the purchasers never saw any more of either of them until prisoner was apprehended. His brother had, however, not been found. It was proved that Rungapa held a general power of attorney from his brother to transact all his business; and the complainant said that was the reason why he accepted a mortgage deed from Rungapa only. Neither brother, however, did anything to release the house from mortgage, and this circumstance in the opinion of the magistrate proved their dishonest intention, more especially as one of them was keeping out of the way. The prisoner was found guilty of cheating and sentenced to rigorous imprisonment for two years and to pay a fine of Rs. 300 with the alternative of six months' further rigorous imprisonment. He was also sentenced to a similar term of imprisonment and fine on the complaint of the other purchaser Sungapa.

The prisoner appealed from the above sentences to Mr. C. F. H. Shaw, Sessions Judge, Belgaum, who, on the case being argued before him, confirmed the conviction and sentence. Prisoner thereupon appealed to the High Court; and his case was considered on the 18th inst. before Mr. Justice Kemball and Mr. Justice F. D. Melvill.

Their Lordships, in their judgment, said:—The court is clearly of opinion that these convictions are not sustainable. Admitting that accused and his brother committed a breach of contract in not redeeming the property which they had sold, the court fails to find any evidence of a false pretence. There is nothing in the evidence for the prosecution to show that the accused and his brother, when they obtained the money, did not intend to carry out their part of the contract, and the allegation that they absconded is not borne out on the evidence. The court reverses the conviction and sentence, and directs the acquittal and discharge of Shrinivas Shesho.

COURT OF SMALL CAUSES.—AUG. 26.

(Before Rao Bahadoor Ganpatrao Bhaskar.)

A LAWYER'S DEFENCE.

Leslie Crawford and another vs. Atmaram Sitaram.

This was an action brought by the plaintiffs, who are solicitors doing business under the name of Messers. Crawford and Boevey, to recover Rs. 253, the amount of a promissory note executed by the defendant. The defendant, who is a district pleader, appears to have been in some way or other connected with an ecclesiastical suit, which was tried in the High Court, and managed by the firm of the plaintiffs.

Mr. Boevey, who represented his firm in the court, stated in his evidence that the defendant had signed the promissory note on the 21st of April as a security for the balance of professional costs. It was arranged that the note should not be presented till the 21st of June; but when the note was presented at the stipulated time it was dishonoured by the defendant.

The defendant admitted having executed the note as a security, but claimed exemption from all liability in respect of it on the ground of want of consideration.

The Judge.—The *onus* is upon you to prove want of consideration.

The defendant said that the *onus* lay upon the other side, because the law of England which presumed consideration for a note or bond unless the contrary be proved, did not apply here.

The Judge said that in view of the note which the defendant had signed, his liability must be presumed unless he proved the contrary.

The defendant—I am ready to prove my case. I wish to call Mr. Crawford and Mr. Shantaram Narayen. The case must be postponed.

The Judge said the defendant, as a pleader, was acquainted with the proceedings of a court of law. He, therefore, could not view his conduct with that indulgence which he might be disposed to grant to an ordinary layman. As he produced no evidence to prove his case, the court gave a verdict for the plaintiff for the sum claimed.

Defendant (excitedly)—I won't allow this matter to rest. I will make a representation to the High Court. You are asking me to pay the money which is due by some third person—a stranger! The best course is to allow the case to stand over.

Mr. Boevey was about to ask his Honour to take notice of the conduct of the defendant, who, as a pleader, very well knew what contempt of court meant.

By this time the defendant had left the court, and his Honour proceeded with the business of the day.

BENGAL.

The Our Boys Company.—We hear from Secunderabad that Mr. Norville's "Our Boys" company may be expected in Calcutta in about a month or six weeks. At the same time we see that our Bombay contemporaries announce that having engaged some fresh professional talent from England, they are about to take one of the Bombay theatres for the cold season.—*Englishman.*

A Donation.—Kumar Kanti Chandra Singh Bahadur, of Pykepara, has presented the Indian Association for the Cultivation of the Science with a large Equatorial (Astronomical Telescope) of about 7 inches aperture, which has cost the donor Rs. 6,000.

Making Presents to a Judge—Sheik Nural Huq, the Record-keeper of the Calcutta Small Cause Court, Calcutta, has been obliged, by an order of the Judges, to send in his resignation owing to some misconduct on his part in presenting to Mr. Douglas White, the 15th Judge, a case of champagne and other articles, with a view, as it was believed, of influencing the learned judge to bestow upon him an appointment in the warrant department, the emoluments of which were larger than those enjoyed by the Record-keeper. It appeared that the head assistant in the warrant department had been ordered under the 55 years' rul to retire and send in his application for pension. The Record-keeper, among others, had applied for the post about to become vacant. A short time after the Record-keeper submitted his application he sent the champagne and other articles to the Judge's house. They were immediately returned, and on the matter being represented to the Judges, Mr Millett, the learned first Judge, calld upon the Record-keeper for an explanation of his conduct. His explanation was to the effect that in presenting the articles in question he had not the remotest intention of influencing the Judge to give him the appointment, but, as it was usual for Mahomedans and others to make presents to their immediate superiors on festive occasions, he had done so, adding that as he had, on previous occasions, made presents of sweets, and no objection had been made, he ventured to send the champagne, little expecting that his motives would be misconstrued. The judges, however, considered the explanation unsatisfactory. In the first place the occasion was not a festive one, and in the next there was a very great difference between sweetmeats and champagne. It was a serious matter, and, viewing it in the most favourable light, they could not allow such a person to continue as an officer of the Court.—*Englishman.*

MADRAS.

Double Murder.—At the Criminal Sessions held at North Malabar, a man named Kionaran was put upon his trial for the murder of his wife and mother-in-law. From the evidence it appeared that he was on bad terms with her wife's relatives, because they would not allow her to go with him to his own house. On the evening before the murder was committed, he went to his mother in-law's, with the object of asking his wife to go home with him. On seeing the accused, his wife ran off and shut herself in an inner room, and consequently prisoner took his bed in another part of the house. The next morning his mother in-law asked him why he had come, and when he explained the object of his visit, she seized a broom and beat him with it. The prisoner's wife also came out and attacked her husband, and, and so assaulting each other they came into the yard, when prisoner ran in again, and bringing out a billhook attacked his wife and hacked her to death. He next rushed after his mother-in-law who ran off, but lost her balance and fell, and before she could rise prisoner came up to her and killed her also. The Court convicted the prisoner of murder, but having regard to the provocation given, only sentenced him to transportation for life.—*Athenæum.*

A Knotty Question.—In the Insolvent Court on Monday before Mr. Justice Kernan, Mr. Handsley, instructed by Messrs. Branson and Branson, on behalf of Mr. Castor, moved the Court in the matter of the estate of Jane Elisabeth Luttrell, deceased, for an order directing the payment to Mr. Castor of sums expended by him in maintaining Mrs. Luttrell. Mr. Gould represented the Official Assignee. His Lordship, after hearing counsel, found a sum of Rs. 1,427-6 due, and directed the payment of that amount out of a sum of Rs. 5,775-0-0 to the credit of the estate, the balance to be distributed amongst Mrs. Luttrell's creditors. It appeared that Mr. Castor had assigned his right to this money to Mr. Harry Van Ingen (the then proprietor of the firm of Taylor and Co.,) who restassigned it to Messrs. Augustus Arathoon and Willoughby Van Ingen on their purchasing the business; and that after Mr. W. Van Ingen left the business Mr. Arathoon assigned it to Messrs. Branson and Branson, on behalf of a creditor; and the question was who was entitled to receive the money. As all the assignees were not before the Court, His Lordship was unable to dispose of this question.—*Mail.*

Departure of the Madras Commissioner of Police.—Colonel Drever, C. S. I., the Commissioner of Police, Madras, left Madras on Tuesday in the French steamer for Marseilles, and will probably retire from the service before the expiration of his present leave. His health was undermined by his exertions during the famine. Colonel Drever is both one of the most experienced and most popular of the officers in the Police Department, which he entered in June 1859, five months before Colonel Hearn, and eleven months after Colonel Swanston, the Nestor of the local service. Colonels Hearn and Swanston will become entitled to their off reckonings in 1884, but Colonel Drever's time will not be completed until the following year.—*Mail.*

CURE OF RHEUMATISM AND SCORBUTIC ERUPTION.

The Elms, North Cheam, Surrey, S. 4th March, 1875.
"Sir,—I had been suffering from rheumatism for several years, together with scorbutic eruption of the skin, of a local nature, about the size of the palm of the hand, and was induced to try you. Blood Mixture in consequence of two gentlemen in my neighbourhood having been cured of obstinate sores on the body. After taking two bottles, I became much better, and continued it up to the tenth bottle, when I found the rheumatism hadleft me, and my arm was healed. I consider it a most valuable medicine.
"You are at liberty to use this letter in any way you think proper, for the benefit of others.
"Faithfully yours,
To Mr. F. J. Clarke." "Thomas Watts."

PAINS IN THE BACK, GRAVEL, LUMBAGO, RHEUMATISM, GOUT, DISEASES OF THE KIDNEYS AND BLADDER, &c.
DR. DE ROOS' COMPOUND RENAL PILLS
ARE celebrated all over the world as the most safe and speedy remedy for the above dangerous complaints. Discharges of any kind, from the Bladder, and Diseases of the Kidneys and Urinary Organs generally. Possessing tonic properties, they agree with the most delicate stomach, a vaughan the digestive organs, increase the appetite, improve the general health, and in three days will effect a cure when copaiba, cubebs, and all dangerous medicines of that class have utterly failed.
These celebrated Pills are an infallible remedy in the most obstinate cases. By their use alone, many thousands are annually restored to health, and the agonies of gout and rheumatism may now be considered a voluntary affliction, as no one need suffer these excruciating torments if they will only have recourse to these Pills, which are confidently recommended by the proprietor as the only real specific; whilst for weakness across the loins, sandy or other deposit in the water, and in all cases of real or urinary disturbance, they are indeed unrivalled. They correct acidity of the stomach, promote the functions of the liver and kidneys, thereby preventing stone in the bladder, &c. Many complaints, long supposed to be nervous, often arise solely from contamination of the blood with certain impurities which should have been carried off by the kidneys. Thousands of testimonials from grateful patients attest their marvellous efficacy. In boxes 1s. 1½d., 2s. 9d., 4s. 6d., 11s. & 33s.

THE MOST WONDERFUL PILLS IN THE WORLD
DR. DE ROOS'
PILULÆ VITÆ, OR VEGETABLE LIFE PILLS.
ALL sufferers from general nervousness, and morbid feel nge, low spirits, loss of memory, sleepless ness, harassing dreams, unnecessary fears, mental irritability, failure of the sexual and bodily powers, weakness of the nerves, headache, noises in the head, giddiness, indigestion, and other symptoms of chron c disease, will hail with joy the discovery of Dr, De Roos' Life Pills, which speedily and almost magically remove pain and disease of whatever nature, restore cheerfulness to the spirits, vigour to the body, and strengthen all the organs on which health and life depend, they do not contain a particle of mercury, but are purely vegetable; and for all affections of the liver, flatulence, bile, sick headache, dizziness, loss of appetite, lowness of spirits, the sensations of fulness at the pit of the stomach, pain between the shoulders, and the distress arising from indigestion and general debility they will be found of unexampled efficacy; and it is no small advantage that they can be taken at any time without danger from wet or cold, or the least restraint from business or pleasure. They act mildly on the bowels, without pain or griping, impart strength to the stomach, promote a healthy action of the liver, thus preventing, or when present, curing the jaundice and dropsy, clearing the skin, removing sallowness and pimples, purifying the blood bracing the nerves, and marvellously invigorating the whole system. A trial of all sorts will find them invaluable, and should never be without them. Price 1s. 1½d, 2s. 9d., 4s. 6d., 11s, and 33s. per box.

THE MOST ASTOUNDING CURES
Are daily being effected in cases of Nervousness, General Debility, Impurity of the Blood, Defective Circulation, Languor, Lassitude, Depression of Spirits, Indigestion, Pain and Palpitation in the Side, &c., &c., by
DR. DE ROOS'
WORLD-FAMED GUTTÆ VITÆ, OR VEGETABLE LIFE DROPS,
whose effects are really magical in restoring lost tone to the system (arising from whatever cause), re invigorating and enlivening the whole corporeal frame, and gradually, but effectively, building up the most shattered constitution.
Although this truly wonderful recuperative tonic is not put forward as an impartial immortality, it is not too much to say by i s means now life is, as it were, imparted to the nervous and debilitated, who were evidently sinking into an early grave; whilst to those of mature years it will surely and certainly protract the close of life. Thousands of apparently hopeless cases, given up by the faculty, are now in the enjoyment of health and strength, a living testimony to the unspeakable value of this remarkable medicine. Hundreds of testimonials, too numerous to publish, may be seen by any one. This preparation is extremely pleasant to take, and none need suffer while such a miraculous medicament is in existence. Persons of sedentary habits, debilitated females, and those on whom the mind and fear of life is beginning to tell, should persevere steadily with this life-reviving tonic for one month, and they will be astonished at its result. All those who have tried other means, galvanic and electric appliances, &c., without any beneficial result, are earnestly recommended to make fair trial of this medicine, which, being concocted on the highest scientific principles invariably gives the utm st satisfaction. Price 11s and 33s per bottle. Every package of Dr De Roos' Preparations has the words "Walker de Roos, London," printed in white letters on the British Government stamp by order of Her Majesty's Hon. Commissioners. Sold by Messrs. Treacher & Co. Limited, Bombay, and all the principal Merchants in India.

WAR!!!
O WORLD
O MEN, WHAT ARE YE, AND OUR BEST DESIGNS
THAT WE MUST WORK BY CRIME TO PUNISH CRIME.
AND SLAY AS IF DEATH HAD BUT THIS ONE GATE
BYRON.

THE COST OF WAR.
"Give me a country that has been spent in war, and I will purchase every foot of land upon the globe; I will clothe every man, woman and child in an attire of which kings and queens would be proud; I will build a school-house one every mile and in every valley over the whole earth; I will build an academy in every town, and endow it a college in every state, and will fill it with able professors; I will render every birth a day of worship consecrated to the promulgation of the Gospel of peace; I will support in every pulpit an able teacher of righteousness, so that on every Sabbath morning the chime on one hill should answer to the chime on another round the earth's wide circumference, and the voice of prayer and the song of praise should ascend like a universal holocaust to heaven."—Richard.

WHAT CAN BE MORE TERRIBLE THAN WAR?
"I will tell you what is ten times, and ten thousand times, more terrible than war—Outraged Nature. She kills, and kills, and is never tired of killing till she has taught man the terrible lesson he is so slow to learn, that Nature is only conquered by obeying her. . . . Man has his courtesies of War; he spares the woman and the child. But Nature is fierce when she is offended, as she is bounteous and kind when she is obeyed. She spares neither woman nor child. She has no pity; for some awful but most good reason, she is not allowed to have any pity. Silently she strikes the sleeping child with as little remorse as she would strike the strong man—with the musket of the pick-axe in his hand. Ah! would to God that some man had the pictorial eloquence to put before the mothers of England the mass of preventable suffering, the mass of preventable agony of mind and body which exists in England year after year."—Kingsley.

HOW to PREVENT DISEASE and PREMATURE DEATH by natural means, use
ENO'S "FRUIT SALT."
WHAT EVERY TRAVELLING TRUNK and HOUSEHOLD in the world ought to contain—
A BOTTLE of ENO'S "FRUIT SALT."
Without such a simple precaution the jeopardy of life is immensely increased.

ENO'S FRUIT SALT
PREPARED FROM SOUND RIPE FRUIT.
IMPORTANT to PARENTS.
SHOULD a parent have nothing to bestow on a child but a narrow education, still he will bless you if you form his body to health, and strength, and activity, whether he earns his simple meal by labour at the plough, anvil, or axe. On the contrary, if you neglect his health and strength, and leave him a debilitated wretch, he will curse you, though a millionaire.
ENO'S FRUIT SALT is an INDISPENSABLE REQUISITE in the PRESERVATION of CHILDREN'S HEALTH.
INJUDICIOUS!!! LIKE.
AS a gentle LAXATIVE or TONIC it is pleasant to the taste, and much superior to nauseous druce; it corrects the ill effects of late hours, over-heating, or exhaustion, and is extremely beneficial in any feverishness or heat of the skin. Unlike other salines, instead of lowering the system, it invigorates its The FRUIT SALT ought to be kept in every nursery, not only for use as a health-giver, but pleasant.
COOLING, REFRESHING, and INVIGORATING BEVERAGE, but also as a convenient and valuable remedial agent. Colds, influenza, fevers, inflammatory diseases, &c. Many fevers and other inflammatory diseases would be thrown off, or greatly modified, if the FRUIT SALT and a blanket bath were used at once.
In disorders of the stomach or of impure blood it is invaluable, for not the least of its recommendations is its resemblance to fruit in the natural way in which it relieves the system of effete matter, which, if retained, poisons the blood. Its advantage over fruit is that it can always be at hand when required; at the same time it is in every respect as harmless as the juices of ripe fruit, from which it has been obtained.
STIMULANTS and insufficient amount of exercise frequently derange the liver. ENO'S FRUIT SALT is peculiarly adapted for any constitutional weakness of the liver. A world of woes is avoided by those who keep and use ENO'S FRUIT SALT.—"All our customers for ENO'S FRUIT SALT would not be without it upon any consideration, they having received so much benefit from it."—Wood Brothers, Chemists, Jersey 1878
ANY EMERGENCY.
IT ought to be kept in every bedroom, in readiness for any emergency, for under any circumstances its use is beneficial, and never can do harm.
"CAUTION IS NECESSARY."—A new invention is brought before the public and commands success. A score of *abominable imitations* are immediately introduced by the unscrupulous, who, in copying the original closely enough to deceive the public, and yet not so exactly as to infringe upon legal rights, exercise an ingenuity that employed in an original channel could not fail to secure reputation and profit.—*Addison.* CAUTION.—Examine each bottle, and see the capsule is marked "ENO'S FRUIT SALT." Without it you have been imposed on by worthless imitations. Sold by all chemists. Price 2s. 9d. and 4s. 6d. Prepared only at Eno's Fruit Salt Works, Hatcham, London, S.E., by J. C. Eno's patent.
